

PERSONAL INFORMATION

Ioan Alexandru ENESCA

Transilvania University of Brașov
Eroilor 29 Street, 500036 Brașov
România
Phone: [REDACTED] Fax: 0040268 410525

e-mail: aenesca@unitbv.ro
<http://membership.sciencepublishinggroup.com/enesca/>

Sex M | Date of birth 18/08/1981 | Nationality Romanian

WORK EXPERIENCE

- 2013 – to date Associate Professor, Transilvania University of Brașov, Eroilor 29 Street, 500036 Brașov, Romania
2007 - 2013 Lecturer, Transilvania University of Brașov, Eroilor 29 Street, 500036 Brașov, Romania

EDUCATION AND TRAINING

- 2014 2 months, Researcher at Tokyo University of Science, Japan
2010 – 2013 Postdoctoral Studies, Transilvania University of Brașov
2012 4 months – University of Basel, Switzerland
2003 – 2007 Ph.D. Material Science and Engineering, Transilvania University of Brașov
2003 – 2005 Master in Project Engineering and Renewable Energy Management, Transilvania University of Brașov, Romania
2003 4 months – Technical University of Delft, the Netherland
2002 – 2003 National Centre for Scientific Research, Grenoble, France
1999 – 2003 Graduated from West University of Timisoara (Romania), Faculty of Physics (Physics and Chemistry)

Mother tongue(s) Romanian

Other language(s)

	UNDERSTANDING		SPEAKING		WRITING

English	C2	C2	C1	C1	C1
French	C1	C1	B1	B1	B1

Levels: A1/2: Basic user - B1/2: Independent user - C1/2 Proficient user
Common European Framework of Reference for Languages

PERSONAL SKILLS

RESEARCH INTEREST

- (1) Materials engineering: hybrid and tandem structures of nano and mezzo materials based on ceramics/semiconductors, tailoring the materials properties using dopants, thin films deposition of complex semiconductor structures with photocatalytic applications.
- (2) Physical-chemistry: opto-electric properties and surface science: morphology/topography characterisation (AFM, SEM), surface energy, crystalline structure and crystallite size (XRD), elemental characterisation (EDX), optical spectroscopy (UV-VIS-NIR-IR), optoelectronic characterisation (I-V, Photocurrent, IPCE), advanced electrical characterization (Impedance, Mott-Schottky), for thin film with complex structures (hybrid, tandem) and various application – photovoltaics, hydrogen technology wastewater treatment.
- (3) Solar energy conversion: hydrogen production via photoelectrolysis (patent on a new photoelectrochemical cell), photovoltaic conversion (patent on a new device for measuring the opto-electric properties) and wastewater treatment.

TEACHING AND MANAGEMENT EXPERIENCE

Since 2010	Expert evaluator for research and development institutes, National Agency for Scientific Research
Since 2008	Course: Photovoltaics systems, undergraduate, Transilvania University of Brasov
Since 2008	Course: Photovoltaics systems, Master Science, Transilvania University of Brasov
Since 2007	Course: Materials for solar energy conversion, undergraduate, Transilvania University of Brasov
Since 2007	Course: Chemistry, undergraduate, Transilvania University of Brasov

RESEARCH PROJECT MANAGEMENT
PROJECT LEADER

2013 – with Tokyo University (Japan)– New one-dimensional and two-dimensional photocatalyst based on metal oxide semiconductors
2009-2011 Deposition, characterization, tailoring and optimization of nano and mezo-structured tin oxide (SnO₂) photocatalyst films with controlled morphology – ID 753, CNCS
2005-2007 Developing and testing new oxides nanostructured materials for hydrogen production by photoelectrolysis – Td 291, CNCS

**RESEARCH PROJECT
MEMBER OF RESEARCH TEAM**

2014 – 2017 Innovative integrated system Materials – Technology – Equipment for simultaneously photocatalytic and adsorbance processes in wastewater treatment, PNII 217, 2014 – 2016.
2014-2017 Sustainable innovative system for photocatalytic self- decontamination protective equipments CBRN, PNII 282,.
2012-2015 Efficient solar-thermal systems with high acceptance for implementation in urban environment, PNII 28, 2012 – 2015.
2012-2015 High surface complex photoactive nanomaterials for ecologic energy production and organic pollutants degradation, PNII 162, 2012-2015.
2008- 2011 Independent monitoring station with application in photovoltaic and environmental protection domains, PN-II Partnership.
2009-2011 Modelling the ionic conduction in absorber and at absorber/buffer layer interface to enhance the efficiency of solid state solar cells, ID840.
2008-2011 New technologies for nano materials with low environmental impact-TECNANOECO, PN-II Partnership, 72-184.
2006-2008 Research on increasing the photovoltaic conversion in solid state solar cells, CNCSIS, A400.
2006-2008 Multifunctional materials for solar thermal efficient conversion MATSOL-T, CEEX, 277/2006, Modul 1.
2006-2008 Integrated conversion systems for renewable energy sources, CEEX, 226, Modul 1.
2006-2008 Product design for sustainable development, CNCSIS Platforme, 14.
2006-2008 Method and installation for chlorine production and utilization for water chlorination by direct pipeline injection, CEEX, Modul 1.
2007-2010 Photocatalytic materials for pollutants removal form the wastewater resulted in the textile industry FOTOCOMPLEX, PNII - 71-047.
2007-2010 Wood and polymer composites with nanostructures materials additives and nanosensors for improving the microclimate quality NANOPROTECT, PNII 31-014.
2005-2007 Promoting and supporting the Romanian research integration in the field of new and renewable energy sources – Combustion fuel and Hydrogen European Technological Platform – PRORES, CEEX, Modul 3, nr.139.
2005-2008 Sustainable energy for high school education - an European training tool, Comenius, 226362-CP-1-2005-1-RO-COMENIUS-C21, SEE - Eu Tool.
2002-2005 Renewable Energy Systems and Environment Management ICT Tools, Leonardo da Vinci, Pilot project, RO/02/B/F/PP 141026, RES&EM ICT Tools.

**EDITORIAL
RESPONSABILITIES**

Scientific reviewer for: Thin Solid Films, Chemical Engineering Journal, Applied Surface Science, Journal of Environmental Management, Catalysis Today, Material Science and Engineering B.

AWARDS AND PRIZES

Prize for research activity, Transilvania University of Brașov (2007) ;
Prize for patents, Transilvania University of Brașov (2010);

**MEMBER OF PROFESSIONAL
ASSOCIATIONS**

Founder member of Romanian Hydrogen Energy Society.
Member of Romanian Chemistry Society.

ADDITIONAL INFORMATION

Publications
Presentations
Patents

Over 60 publications in peer-reviewed journals, books and chapters of books
Over 20 oral presentation in conferences
3 patents

ANNEXES**PAPERS PUBLISHED IN ISI THOMSON JOURNALS, WEB OF SCIENCE**
